ROB OFFICE IN EARLY EVENING

Thieves Stole \$10.18 From I. & C.
Ticket Office Last Night Be-
tween 8 and 9 O'clock.

DEFTLY OPENED THE WINDOW

In Their Haste Overlooked Over \$100
Under Till in Money Drawer—
Also Registered Mail.

Robbers broke into the ticket office at the I. & C. traction station last night between the hours of eight and nine o'clock and stole \$10.18 out of the cash drawer. But the best of the story is the fact that they overlooked over one hundred dollars in the same drawer and also a large amount of money in envelopes in the shelves in the office. The police were notified of the robbery immediately but have not been able to find any clues.

Raymond Perkins, night agent, had stepped out for a few minutes and returned about nine o'clock to find that his cash drawer had been robbed. The ticket window had been deftly opened and the drawers looted. They were both standing open when the agent arrived. The thieves had evidently lowered a hook of some sort through the wire screen and had succeeded in unhooking the door from the inside, as it had not been forced, but opened in the usual manner.

The robbers evidently worked fast as they overlooked what would have made a real haul. One hundred dollars, the day's business, had been placed in a sack and layed in the drawer just below the till. The thieves overlooked that or else were frightened away before they could complete their work. Besides the hundred dollars, several bills were laying under the till in the drawer, and they, too, were untouched.

They did not get into the office, so it seems, as nothing inside the screen was touched. All of the day's business in all over the smaller offices along the line is sent into the main office each evening. It was placed in envelopes and laying in shelves in the office. By reaching over the robbers could also have taken that, which amounted to several hundred dollars.

It is believed the robbery is the work of local talent, who were well acquainted with the conditions there, the fact that the agent was out for a few minutes and that the door unhooked from the inside. It is the common theory that the thieves probably did not overlook the other money but rather were scared away by passersby.

It seems almost impossible for thieves to make such a haul so boldly on one of the most frequented corners in the city. Seldom a minute passes during the early hours in the evening that someone does not pass the office. They were evidently well acquainted with conditions and stayed there waiting for the opportune time, which finally came.

AS RILEY WOULD SAY.

When the dust is on the counter and the cobweb's on the shelf, and there's no one in the store but your own disheartened self, and your stock is getting shelf-worn and everything looks stale, and bills enough are coming in to turn a banker pale. Oh! then's the time a fellow is a feelin' kind o' blue, and is puzzled with the thought of the proper thing to do. In such a situation but one remedy applies. If you want to get the customers, you've got to advertise.

ENTERTAIN VISITORS TODAY

Connersville Women Enjoy C. W. B.
M. Program at Miller Home.

A large delegation of women from the Connersville Christian church, members of the Christian Women's Board of Missions of that city, arrived this afternoon over the I. & C. traction line and were pleasantly entertained at the home of Mrs. B. F. Miller in North Morgan street by the members of the C. W. B. M. of the Main Street Christian church. Mrs. Miller was assisted by the captains of the divisions. A pre-arranged program was carried out.

MANILLA MAY BOAST OF AN OPERA HOUSE

Plans Are Under Way to Add Another
Story to New Mull Business
Block.

WHICH IS NOW BEING ERECTED

If plans which are now in an embryonic state reach materialization, Manilla will soon have a modern and up-to-date opera house, says the Shelbyville Democrat. As the matter stands at the present time, nothing definite has been done, but it will likely be taken up for final settlement within the next few days. Work on the five-room business block being erected by F. A. Mull has been started and it is planned to have Mr. Mull add another story to the building.

A report from Manilla Tuesday stated that he was willing to add the second story provided that some secret order would lease it for a number of years. The new building will be fifty by eighty feet and should Mr. Mull decide to make the change it would make a large and commodious room. With their spirit of home pride that has manifested itself on several different occasions Thomas K. Mull, Leonidas H. Mull and Miss Mary Mull, it is said, have agreed to donate the owner five hundred dollars each if he will add the second story, which would be used as an opera house and lodge room.

STRAY DOGS RAID THE CHICKEN COUPS

Residents of North Main Street Are
Worried by Strange Actions of
Two Ownerless Canines.

HOWL ALL DURING THE NIGHT

The residents of North Main street are worried by two stray dogs which are raiding the hen coops in that vicinity almost continually. Most of the people in that neighborhood have threatened to shoot the canines on sight as they say that they have committed so many thefts that the losses are becoming noticeable. They steal chickens, geese or ducks and are not the least bit particular. They not only steal but keep many residents awake all night by their howling. One woman in that vicinity thought that the dogs acted strangely today and feared that they were mad. They are said to be ownerless and the neighbors will make a complaint to the city marshal.

The residents of St. Paul are planning to hold their annual reunion and home coming some time during the month of August.

'BIG WEDNESDAY' ATTRACTS CROWD

People Throng Streets All Afternoon,
Enjoying Band Concerts and
Matinee Shows.

TWO BAND CONCERTS TONIGHT

Auction Feature Was a Success, a
Large Crowd Attending Dur-
ing the Hours.

"Big Wednesday" was all that has been said of it and more too. The crowds on the streets this afternoon were large and they were busy between listening to the band concert and attending the free matinee moving picture shows. The Arlington band which gave concerts on the public square all day, will play tonight as will also the Rushville band.

The new feature of the day, the free public auction was a success. The business room at the corner of Main and Second streets was crowded with people during the auction hours and many valuable articles were disposed of at a small price. The farmers did not enter much in the auction today, as it is thought that they are not yet well acquainted with the conditions. Most of the goods put up in the auction was furnished by the merchants.

The concert by the Arlington band this afternoon and the free matinee shows were the big attractions. The moving picture theaters were crowded all afternoon and whenever one show closed the streets were crowded in front of the amusement houses.

The crowd here today was largely women, due to the fact that most of the farmers are now busy with their farm work. They are in the midst of a busy season. But the farmers' wives could take advantage of the many bargains offered by the local merchants.

Many business houses were decorated for the occasion today. It is urged by the members of the association that this feature be more closely attended to so that the city will put on a gala appearance. All of the merchants displayed their special bargains in their windows and many of them made attractive displays.

The business men report a good day's business. All of the downtown stores were crowded most of the afternoon with purchasers seeking "Big Wednesday" bargains and other goods, too. It is certain that "Big Wednesday" will be a permanent fixture in Rushville.

WOMEN HOLD TO THE LINES

And Keep Fractious Horse From
Running Away in Glenwood.

Miss Leora Brooks, daughter of Mr. and Mrs. Foster Brooks, of near Glenwood, accompanied by two young lady friends, had an exciting runaway experience in Glenwood Monday afternoon, says the Connersville News. They were driving along the main street when a part of the harness gave way and the horse became frightened and began to kick viciously. In spite of the best efforts of Miss Brooks to quiet it, the beast continued kicking until it had freed itself from the buggy. The young lady still held the lines, however, and kept it from running away. None of the occupants of the buggy was hurt but the buggy was seriously damaged.

Dr. W. E. Barnum of Manilla has returned home after a visit through the South.

GOVERNOR WILL MAKE ADDRESS

Thomas R. Marshall to Speak to the
Graduating Class at Soldiers'
and Sailors' Orphans Home.

COMMENCEMENT NEXT WEEK

Local People Always Attend Annual
Exercises—Band Concerts are
Features of Week.

The annual commencement exercises of the Indiana Soldiers' and Sailors' Orphans' home, which will be held next week, are always an event in the life of many local people. Large crowds always go from here and enjoy the beautiful scenery and grounds at the home and the program incident to the last week of the school year. The distance is not far and many parties of people drive through and take their lunches, spending the whole day there.

The annual event this year promises to be more attractive than ever due to the fact that Governor Thomas R. Marshall is expected to deliver the main address. He has promised to speak to the class going out on Thursday morning of next week. He is also expected to be present Wednesday. Charles F. Remy of Indianapolis will deliver the class address next Sunday morning. The concerts by the Home band, which has become famed all over the State for its music, are always an entertaining feature of the week.

Alumni from all parts of the State and country come to the Home at commencement each year and their reunions are enjoyable features of the week.

The program follows:
Sunday, June 19.—10 a. m., sermon by Charles F. Remy; 2 p. m., sacred concert by the Home band.

Wednesday, June 22.—8:30 a. m., school exhibits; 7:15 p. m., school musicale.

Thursday, June 23.—8:30 a. m., alumni business meeting; 10 a. m., graduating exercises; address by Governor Thomas R. Marshall; 1:30 p. m., band concert; 2:30 p. m., planting of class ivy; 2:30 p. m., presentation of G. A. R. badges; 3 p. m., school exhibits; 3 p. m., athletics; June carnival; 7:30 p. m., alumni program; 9 p. m., alumni reunion.

CONDUCTOR "BEATS UP" SASSY TRAMP

Sharkey on West-Bound C. H. & D.
Passenger Resents Being Called
Vile Names.

ORDERS HOBO OFF THE TRAIN

Conductor Sharkey of the west-bound C. H. & D. passenger which is due here at 5:29 in the morning, administered a good beating to a hobo who crossed him this morning. The conductor ordered the tramp off of the train and he did so after some hesitation. After he got down on the platform he called the conductor a vile name, which Sharkey resented. He proceeded to butcher up his facial anatomy to some extent until the hobo said that he never said a word. The conductor said that he had been having trouble with the tramp all night and had put him off several times between here and Cincinnati.

THE WEATHER.
Fair tonight and Thursday.

COMES MILES FOR BRIDE

Lem A. Johnson Travels From Wy-
oming to Knightstown.

Lemuel A. Johnson came a long way to claim a bride. He is a railroad contractor with headquarters at Bird's Eye, Wyo., and he arrived at Knightstown on Saturday. Yesterday he and Miss Edith Hamilton, the daughter of Dr. Hamilton of Knightstown, applied for and received a marriage license. They were married today in Indianapolis and left at once for their western home.

PREPARING TO START THE WORK

President of Adams Bros. Construc-
tion Co., Who Got Brick Street
Contract, Was Here.

EXPECT TO BEGIN ABOUT JULY 1

If plans which are now in an embryonic state reach materialization, Manilla will soon have a modern and up-to-date opera house, says the Shelbyville Democrat. As the matter stands at the present time, nothing definite has been done, but it will likely be taken up for final settlement within the next few days. Work on the five-room business block being erected by F. A. Mull has been started and it is planned to have Mr. Mull add another story to the building.

LOCAL EAGLES WILL ATTEND MEETING

Local Lodgemen Will be Present at
Annual Event Which Opens in
Richmond Tonight.

WILL CONTINUE UNTIL FRIDAY

Several local lodgemen will attend the annual State convention of Indiana Eagles which will be held at Richmond this week. The convention opened today and will continue until Friday evening, and there will be several thousand Eagles from various cities of the State in attendance.

The initial session will be held this evening in the Coliseum. Mayor W. W. Zimmerman will deliver the address of welcome and Frank E. Hering of South Bend, grand worthy president, will respond. An address of welcome from the business men of the city will be made by Attorney W. W. Deller, secretary of the Young Men's Business club. The Rev. A. M. Hackleman of Montpelier, will deliver an address on "Practical Christianity" and there will be other features of interest.

ESCAPED BY JUMPING.

Ira Leffler, the engineer of the train which was wrecked near Washington, Ind., Saturday, is the son of Mr. and Mrs. Samuel Leffler of St. Paul. He escaped injury by jumping. The wreck was caused by the dropping of the tie bar on the locomotive.

MASONIC MEETING.

Phoenix Lodge No. 62 F. & A. M. will work in the Entered Apprentice degree Thursday evening, June 16. A good attendance is desired.

PLAN TO ERECT NEW BUILDINGS

Three Structures Will be Built in St.
Paul to Manufacture Bell
Smokeless Powder.

CONTRACT LET YESTERDAY

Experiments Have Proven That the
New Invention is One of Best
on the Market.

Assured that the venture will be a success, the Bell Smokeless Powder company of St. Paul Tuesday took the initiatory step leading toward the erection of suitable buildings for the manufacture of their product, says the Shelbyville Democrat. Ground belonging to James Martin and located one mile south of St. Paul has been leased for a building site, according to the announcement from that place yesterday. The contract for the erection of the buildings has been awarded and work will be started within the next few days.

Three buildings will be erected at the present time. One of the structures will be devoted exclusively to the manufacture of powder. Another will contain the laboratory and shell loading appliances while the third structure will be used as a dry house. If the project meets with the expectations of the promoters other buildings will be erected along with the concern. Stock has been purchased by a number of persons and the company starts out under auspicious circumstances.

The main promoters are so well fortified with facts and figures and are so confident of the success of the project that they have made but little or no effort to interest outside capital. As a result the concern is backed almost entirely by local capital.

Crucial tests of the powder have been made many times and a shoot was given by the inventor, Dr. J. W. Bell, at St. Paul a few days ago at which time nothing but the new powder was used. The results proved conclusively that the new invention was a decided success. Men who have experience say that the powder is the best they have ever used.

Citizens of St. Paul are jubilant as a result of the experiments that have been made with the new product. Enterprising citizens of that thriving little city believe they see the dawning of a new era as far as the industrial life of their town is concerned.

HAS NOT SEEN HER SISTER FOR 5 YEARS

Relative Arrives From South Dakota
to View Body of Mrs. Miller,
Who Committed Suicide.

BURIAL HELD THIS AFTERNOON

The sister of Mrs. L. H. Miller, who committed suicide by drinking carbolic acid at her home near Homer Saturday afternoon, arrived here last night from her home in South Dakota. She started here just as soon as she received word of Mrs. Miller's death. She had not seen her sister for five years. The funeral services were held Monday afternoon, but the burial was withheld until the relative arrived as she had started on the long journey to see the remains of Mrs. Miller. Private burial was held at the Hurst cemetery this afternoon at 2:30 o'clock.

Daily Markets

Theo. H. Reed & Son are paying the following prices for grain—today, June 15, 1910:

Wheat 98c
Corn 55c
New Oats, per bushel 35
Timothy Seeds, per bushel 1.75
Clover Seed \$6.00 to \$6.50

The following are the ruling prices in the Rushville market, corrected to date—June 15, 1910:

POULTRY.

Spring Chickens, per pound 20c
Hens, on foot, per pound 12c
Geese, per pound 4c
Ducks 8c
Turkeys, per pound 13c

PRODUCE.

Eggs, per dozen 17
Butter, country, per pound 17

Indianapolis Grain and Livestock.
Wheat—Wagon, 94c; No. 2 red, \$1.00. Corn—No. 2, 62c. Oats—No. 2 mixed, 44c. Hay—Baled, \$14.50 to 16.50; timothy, \$15.00 to 16.50; mixed, \$12.50 to 13.50. Cattle—\$4.00 to 8.00. Hogs—\$7.50 to 9.55. Sheep—\$2.50 to 5.00. Lambs—\$6.00 to 9.00. Receipts—7,000 hogs; 1,700 cattle; 650 sheep.

At Cincinnati.
Wheat—No. 2 red, \$1.10. Corn—No. 2, 62c. Oats—No. 2, 37c. Cattle—\$3.50 to 7.50. Hogs—\$7.50 to 9.45. Sheep—\$2.50 to 4.90. Lambs—\$4.00 to 9.15.

At Chicago.

At East Buffalo.
Cattle—\$4.25 to 8.60. Hogs—\$6.00 to 9.85. Sheep—\$4.00 to 6.15. Lambs—\$8.00 to 9.00.

BOTH FACTIONS WELL PLEASED

Railroad Bill Comes Out of Conference.

TO BE DISPOSED OF AT ONCE

While the Democrats, as a Party, Will Oppose It, They Will Do Nothing to Retard Its Passage, and Both Factions of the Republicans Express Satisfaction—May Get to President the Last of the Week.

Washington, June 15.—The conferees on the railroad bill have had an agreement and the measure, practically in the form that it will appear on the statute books, is now before the senate and the house. Both factions of the Republican party seem to be well satisfied with the conference report, and it is expected that the bill will be disposed of and sent to the White House for President Taft's signature by the end of the week. The bill emerges from the committee with many of the insurgent provisions still in it. In fact, about the only radical propositions dropped by the conferees was the house's physical valuation section and the provisions regulating the issuing of railroad stocks and bonds. The bill as it reappears contains a long and short haul amendment, a feature that all of the insurgents and a few regulars have been demanding for months; a provision authorizing the interstate commerce commission to suspend the operation of rate increases for ten months—pending an investigation into their seasonableness; an amendment shifting the burden of proof in rate cases from the shipper to the railroad itself, and several other propositions that the western radicals forced into the bill.

The house conferees emerged from the conference room with considerably more to their credit than representatives of that body have usually been accustomed to get in dealing with the senate leaders. Chairman Mann of the house committee on interstate commerce believes the conference bill strongly entrenched. The house came within six votes of accepting the senate bill as a substitute for its own, and a realization on the part of the senate leaders that the house might take matters into its own hands and accept the bill as it passed the senate, probably made them more conciliatory than they otherwise might have been. The senate bill had provisions that the leaders had accepted merely for the purpose of shutting off the debate and with the intention of throwing them overboard in conference.

The agreement on the report brings practically to an end a fight that has been waged for almost four months, and there were sighs of relief on both sides of the capitol by insurgents, regulars and Democrats when the report was received and seemed to be satisfactory to nearly all hands. The Democrats as a party will, of course, oppose it, but they probably will do nothing to delay its passage. The president gets in the conference report the commission that he has insisted upon for the investigation of alleged stock watering by railroad corporations. The president is authorized to appoint a commission and to fix the pay of the men. The total appropriation, however, is only \$25,000, and the commission will have no power to subpoena witnesses.

The President at Marietta.

Marietta, O., June 15.—President Taft spoke today at the commencement of Marietta college. He will leave for the capital this evening.

MYRON D. KING

Secretary of the Indiana State Democratic Committee.

NOT GOING TO GET OFF WITHOUT A WRANGLE

House Insurgents Fixing Up Trouble for Regulars.

Washington, June 15.—Although the end of the session is in sight and things are going on peacefully, it is not at all unlikely that there may be another big rules row in the house before the gavel falls for the last time. The insurgents on the Republican side are talking of holding a meeting the latter part of this week or the first of next to agree on a program for doing something to the regular organization. Hamilton Fish of New York, one of the most persistent members of the insurgent tribe, said that at a favorable moment before the end of the session he would move to discharge the rules committee from further consideration of his resolution to limit the time in which any committee may consider a bill. He is inclined to think he may get into action early next Tuesday morning.

Representative Shirley of Kentucky said that if the Democrats assured him that they would stand by him he would call up his resolution providing a manner of recalling bills and resolutions from committees. In demanding consideration for these proposed changes in the rules, the insurgents will use the Norris method of claiming for their propositions the highest constitutional privilege.

Jurisdiction Over Lake.

Washington, June 15.—A joint resolution originating in the house, authorizing the states of Illinois, Indiana and Michigan to agree upon the question of jurisdiction over crimes committed on Lake Michigan, has been adopted by the senate. The measure now goes to the president and will become a law upon receiving his signature.

Direct Election of Senators.

Washington, June 15.—Senator Beveridge addressed the senate in support of the election of United States senators by direct vote of the people. He declared that the reform is one that is bound to come. He gave many reasons why it should be brought about.

Charlton's Arrest Reported.

Rome, June 15.—An unconfirmed report has reached here that Porter Charlton, the American whose wife's body was found in a trunk in Lake Como a few days ago, has been arrested at Lausanne.

TERSE TELEGRAMS

Four powder men were blown up by a premature shot in the Mercedes mine at Webb City, Mo.

It is estimated that 200 persons lost their lives in the flood that swept the valley of the River Ahr, in the Eifel region of Germany.

The Duke of Connaught will go to Cape Town to open in November the first parliament of the Union of South Africa.

Advices received from Rio de Janeiro state that insurgents in the Acre district of western Brazil have driven out the governor and declared their independence.

The sundry civil bill, just passed by the senate, carries appropriations aggregating \$118,000,000, an increase of \$16,000,000 over the amount carried in the bill as passed by the house.

Elisha P. Wilbur, sr., former president of the Lehigh Valley railroad and several times a millionaire, is dead at his summer home on Sport Island, Alexandria bay, Thousand Islands.

Senator Cummins has been chosen temporary chairman of the Iowa state Republican convention to be held in Des Moines, Aug. 3. The insurgents control the state central committee.

Charles Holigan, while leading his bride, Mary Isvet, to the altar, was held up by a number of striking miners in Bradenville, Pa., and forced to join their union before they would permit the wedding.

ALLERTELL

Register No. 26391; Record 2.18¼

Sire of Allie Vincent 2:12¼; Coplin 2:13¼; Matinee, record 2:10¼ half mile track; Moquan 2:19¼, 1909; Baron Laddie 2:13¼, trial 2:07; Miss Bentley 2:16¼; Utell (3), 2:25¼; Allerax 2:25; Zella (3), 2:29¼; Lee, 2:29¼; Prince Walker, 3-year-old trial record in 2:25¼. Allertell 2:18¼, is by Allerton 2:09¼, sire of 202 standard performers. First dam Etholeen, dam of Geo. Muscovite 2:08¼; Allertell 2:18¼, by Axtell (3), 2:12, sire of 129 performers. Second dam Cypress 2:22, dam of 6 and 9 producers, by Strathmore 408. Third dam Aspinola, dam of 1 and granddam of 9, by Belmont 64. Fourth dam, great brood mare, Patsy Burns, by Paddy Burns.

ALLERTELL is 16 hands and 1 inch high, weighs 1275 pounds, a brown, grand size and individuality, and when you study his blood lines, it bristles with speed producing lines. Allertell's sire, Allerton, all things considered, is the greatest living sire up to 1909, his list numbering 202, exceeded by only one sire, Gambetta Wilkes, and he is several years older than Allerton. Allertell, dam by Axtell (3), 2:12, world's record when made, and he the sire of Axworthy, 2:15¼, sire of the World's Champion, 3-year-old trotter, General Watts 2:06¼, and World's Champion trotting mare, Hamburg Belle, 2:01¼.

ALLERTELL will make the season of 1910 at Riverside Park, Rushville, Indiana, where his colts will be in training. The public is invited to call and inspect Allertell and his colts.

Treating The Wrong Disease

Many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous prostration, another from pain here and there, and in this way they present alike to themselves and their easy-going or over-busy doctor, separate diseases, for which he, assuming them to be such, prescribes his pills and potions. In reality they are all only symptoms caused by some weakness or derangement of the organs distinctly feminine. The physician, ignorant of the cause of suffering, keeps up his treatment until large bills are made. The suffering patient gets no better by reason of the wrong treatment, but probably worse. A proper medicine like Dr. Pierce's Favorite Prescription, directed to the cause would have entirely removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery. It has been well said, that "a disease known is half cured."

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system.

It is made of native American medicinal roots without the use of alcohol and is perfectly harmless in its effects in any condition of the female system.

As a powerful, invigorating tonic "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For overworked, "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," house-keepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequalled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nerv-

EVERY WOMAN ought to possess Dr. Pierce's great book, the People's Common Sense Medical Adviser, a magnificent thousand-page illustrated volume. It teaches mothers how to care for their children and themselves. It is the best doctor to have in the house in case of emergency. Over half a million copies were sold at \$1.50 each, but one free copy in paper-covers will be sent on receipt of 21 one-cent stamps to pay the cost of mailing only; or send 31 stamps for a handsome cloth-bound copy. Address the publishers, World's Dispensary Medical Association, 663 Main St., Buffalo, N. Y.

ine "Favorite Prescription" is unequalled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, St. Vitus's dance, and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the distinctly feminine organs. It induces refreshing sleep and relieves mental anxiety and despondency. Dr. Pierce's Pleasant Pellets invigorate the stomach, liver and bowels. One to three a dose. Easy to take as candy.

In Just Five Months

WYETH'S SAGE AND SULPHUR HAIR RESTORER

Grew a Full Growth of Hair On a Bald Head

Here's the Proof

For two or three years my hair had been falling out and getting quite thin, until the top of my head was entirely bald. About four months ago I commenced using Wyeth's Sage and Sulphur Hair Restorer. The first bottle seemed to do some good and I kept using it regularly, until now I have used four bottles. The whole top of my head is now fairly covered with hair and it keeps coming in thicker. I shall keep on using it a while longer, as I notice a constant improvement.

STEPHEN BACON, Rochester, N. Y.

STATE OF NEW YORK } ss.
County of Monroe }
Stephen Bacon, being duly sworn, says that he has read the statement above annexed and that the contents of said statement are true.

STEPHEN BACON.

Sworn to before me this 31st day of July, 1902.
HENRY W. HALL,
Notary Public.

The birthright of every man, woman and child—a full, healthy head of hair. If your hair is falling, if it is full of dandruff, or if it is faded or turning gray, it is diseased and should be looked after without delay.

WYETH'S SAGE AND SULPHUR HAIR RESTORER, a true Hair Tonic and Restorer, removes dandruff in a few days, stops hair falling in one week, and starts a new growth in a month.

and does not soil the skin nor injure the hair; but it is an ideal hair dressing that will restore faded and gray hair to natural color and keep the hair soft and glossy.

How to Cure Eczema, Pimples, And Dandruff.

We desire to say that when we took the agency for ZEMO, we were convinced that it was a valuable remedy for Eczema, pimples, and dandruff. Yet, we must frankly admit that Zemo has far exceeded our expectations as a treatment for skin diseases. We are pleased to state that we shall continue the agency as ZEMO has given splendid results wherever recommended. Our customers like ZEMO too, because it is a clean vegetable liquid for external use.

ZEMO effects its cures by drawing to the surface of the skin and destroying the germ life that causes the disease, leaving the skin clear and healthy. It does not soil the clothing or linen and can be used freely on infants.

With every purchase, we give a booklet on skin disease explaining in simple words how any person can be cured at home of any form of skin or scalp diseases by this clean, scientific remedy. F. E. Woleott, Druggist.

Do Your Clothes Look Yellow?

If so, use Red Cross Ball Blue. It will make them white as snow. Large 2oz. package 5 cents.

NEW LIGHT ON SUTTON CASE

A Hidden Witness Said to Be in Arkansas.

THE NAVAL ACADEMY TRAGEDY

J. B. Judkins, Formerly President of the Arkansas Senate, Says a Former Enlisted Man, Now in That State, Can Throw New Light on the Killing of Lieutenant Sutton and Is Prepared to Show That Young Officer Did Not Commit Suicide.

Washington, June 15.—Interest in the case of Lieutenant James H. Sutton of the marine corps, who was killed in a midnight fracas at the Annapolis academy two years ago, has been revived by the declaration of J. B. Judkins, formerly president of the Arkansas state senate, that Sutton did not kill himself as the verdict has it, but was shot in the back of the head while defending himself. In a letter to Representative Oldfield of Arkansas, Mr. Judkins says that a former enlisted man in the navy whose name he communicated to Mr. Oldfield with the request that it be withheld from the public at this time, tells a vastly different story of the shooting of Sutton than came out in the several official inquiries.

Mr. Judkins also says that this material witness was hustled out of the way so that he might not be called on to testify. After referring to the resolution pending before congress in regard to the death of Sutton, Mr. Judkins says: "I would be pleased if our senators and representatives from Arkansas would support this resolution, for I assure you that if this man's version of the matter is true, Lieutenant Sutton was no suicide, but was the victim of an overpowering force. I am satisfied that this man came here (Beach Rock, Ark.) at the time he did in order to avoid being called to testify. I also think that his whereabouts is constantly known to the parties present at the killing, therefore interested in the result and in having this man kept hidden."

RUMOR PURSUES HIM

Washington Again Hears That Fairbanks Is to Go to London.

Washington, June 15.—The rumor has been revived here that former Vice President Fairbanks will be appointed ambassador to Great Britain to succeed Mr. Reid. The report has been circulated from time to time in this city and it has always been officially denied. It was said at the state department that it was incorrect. It is known here, however, that Mr. Fairbanks is eager to enter the diplomatic service. He was offered the post of minister to China last year while he was on his trip around the world, but he declined the offer.

Some months ago Secretary of State Knox told Mr. Reid that he would be allowed to remain as ambassador to Great Britain indefinitely. Officers of the state department regard this assurance as indicating that Mr. Reid can remain as long as he desires.

NO BLIND TIGER

Court Holds That Elks Can Have Liquor in Home.

Madison, Ind., June 15.—After an exciting trial in the mayor's court, the liquor confiscated at the Elks' home by the police force and stored in the vaults of the city hall was ordered to be returned to the lawful owners. Mayor Harper held that no "blind tiger" existed at the home, that the liquors were not kept for unlawful purposes, and that the purchase of said liquor was not made in Jefferson county, now in the state of Indiana.

Reduction of Rates Demanded.

Chicago, June 15.—An exposition of the unreasonable and inconsistent practices by which the express companies have been able to gouge extortionate rates for years from the shippers of Chicago and Illinois is contained in a brief submitted to the Illinois railroad and warehouse commission in behalf of the Chicago Association of Commerce following the recent investigation by the commission.

Ended in Death of Three.

San Francisco, June 15.—After shooting dead his divorced wife, Antone Williams, a rich farmer of Concord, across the bay from San Francisco, shot Philip Roach, his wife's "affinity." Roach, though mortally wounded, secured a pistol and killed Williams as he was escaping.

THE WEATHER

Washington, June 15.—Observations of the United States weather bureau, taken at 8 o'clock last evening, follow:

Albany	76	Pt. Cloudy
Atlantic City	62	Pt. Cloudy
Boston	80	Pt. Cloudy
Buffalo	64	Clear
Chicago	74	Clear
Cincinnati	76	Clear
New Orleans	78	Cloudy
St. Louis	70	Rain
Washington	70	Pt. Cloudy

GREAT CROWDS WATCH FLYERS

Indianapolis Aviation Meet Proves Fine Success.

GOOD WORK OF THE AVIATORS

Second Day's Program Was Carried Out Without Mishap, the Bird Men Doing Wonderful Stunts With Their Heavier-Than-Air Machines—An Interesting Race Between Aeroplane and "Wind Wagon."

Indianapolis, Ind., June 15.—The aerial flights at the Indianapolis motor speedway yesterday afternoon were made under variable weather conditions, but the crowd of 5,000 present was treated to many marvelous feats in aviation and enjoyed every minute of the day. The program was not a long one, but it possessed features that were new and exciting, not the least of which was the race between a biplane and a wind wagon, around the course and, much to the delight of the crowd, the aviator came off victorious. Brookins, who broke the world's record for altitude Monday was in the biplane and Carl Baumhofer was at the steering wheel of the windwagon. It was a contest for supremacy between the speed wagon of the air and that of the earth and the air craft won. The biplane came across the line first, the time for one lap of the two and one half miles being four minutes and fifty-eight seconds.

There was a world of difference in the appearance of the two drivers as they sped around the course. Baumhofer with red face and tense muscles looked like a horseman trying to urge his steed to greater effort. Young Brookins sat in his biplane serenely above the earth apparently as comfortable as though he had just lighted a cigarette for a comfortable lounge. No time was kept on the wind wagon, but it raced back to the starting point not far behind the vehicle of the air and drew its share of applause from the spectators in the west grandstand. The first event of the afternoon was a six-lap circuit of the one and a half mile course made by Brookins. There was a light wind and the air currents were responsible for the turns, but the aviators gathered around the monorail realized that Brookins was doing some fancy aviation. It was when Brookins made that part of the course farthest from the crowd that they got their most spectacular view of his flight. As the big white ship careened at the turns of the course there were cheers. Then as the craft skimmed along evenly it looked like a great white bird soaring before a storm of clouds.

Banks of clouds were hiding the sun and as Brookins came in from the first flight his vessel dipped to the earth and sailed up again in succession, taking on the appearance of a light sailing vessel riding the waves. Then again it seemed as if it fell into the trough of the sea. In this flight Brookins hugged the ground. At no time was he up more than fifty feet.

At times it looked as though he would make an involuntary landing, but he did not alight until he was ready. The time for the six laps of 1 1/2 miles each on this flight was fifteen minutes and two seconds. Brookins showed fine control of his machine, following closely the circular course. Brookins again showed his perfect control of the air craft when he made his next flight, the third number of the program. This was scheduled for a race between Brookins and Welsh. Welsh, however, came down just as Brookins was starting. He found his machine had not been in proper condition. Brookins was in the air four minutes and twelve seconds, making 1 1/2 laps.

Brookins next attempted to break his altitude record of Monday, when he ascended 4,384 1/2 feet. After being in the air eight minutes he had reached a height of 1,408 feet, but he got only as high as 2,083 feet and was in the air twelve minutes and forty-five seconds, according to the official time. It was then denied that an attempt had been made to break Monday's record, but this assertion received little credence.

MONEY WELL HIDDEN

Dying Woman Could Not Gain Voice to Reveal Secret.

Hammond, Ind., June 15.—Several months ago Mrs. Frank Mulvey, well-known society woman of Hammond, died, and recently Mrs. Marshall Gardner of Bridgeport, Conn., came to visit her brother, Mr. Mulvey, and assist him in housekeeping. While making a bed Mrs. Gardner accidentally tore a mattress and saw a bulky package tied in a handkerchief. When unwrapped it was found to contain \$5,000 in bills, which had been sewed into the mattress by Mrs. Mulvey. Her death was sudden, and just before she died she seemed to have a secret to impart, but could not talk.

Muncie Overrun by Burglars.

Muncie, Ind., June 15.—The police are baffled by a series of burglaries and purse snatchings. Within the last two weeks there have been nearly a score of robberies.

GOOD NEWS

Many Rushville Readers Have Heard It and Profited Thereby.

"Good news travels fast," and the thousands of bad back sufferers in Rushville are glad to learn that prompt relief is within their reach. Many a lame, weak and aching back is bad no more, thanks to Doan's Kidney Pills. Thousands upon thousands of people are telling the good news of their experience with the Old Quaker Remedy. Here is an example worth reading.

Mrs. W. L. Smith, R. F. D. No. 19, Arlington, Ind., says: "My child was afflicted with kidney complaint and suffered severely from backache and headaches. The doctors could give no relief and the various remedies that were tried proved just as useless. At last we learned of Doan's Kidney Pills and my husband obtained a box. This preparation soon brought relief and since taking it, the child has been in much better health. I give Doan's Kidney Pills my most hearty endorsement."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

IN THE AIR

GOT HIS JOB BUT NOW CAN'T LET GO

Applicant for Federal Position Too Successful.

Alton, Ill., June 15.—Charles W. Freeman, a young traveling salesman, is in trouble as a result of having applied for a mail route in the Yellowstone Park. Since he made his application he got a far better job. Yet word came to him that he had been awarded the mail route and that he was to begin work July 1. Freeman wired he could not accept, and the officials wired back that he would have to do it or forfeit a bond of \$5,000 and spend twelve months in jail.

The young drummer has appealed to Congressman Rodenberg of this district to help him. In the meantime he will have to resign his position and start west to pack mail over a lonely route in the Yellowstone.

GETS INJUNCTION

Dalzell's Opponent Wins Point Over Pennsylvania Congressman.

Pittsburg, June 15.—Dr. Robert J. Black, who is contesting the nomination of Representative John Dalzell in the Thirtieth congressional district, won a point when Judge Josiah Cohen issued a temporary injunction directing that the county commissioners should not certify to the secretary of the commonwealth the result of the official vote cast in the primaries of June 4 until the courts decide whether a recount of the entire district shall be made. Dr. Black recently petitioned the county commissioners to open the ballot boxes in sixty-five districts and recount the votes.

Sons of Veterans Appointments.

Valparaiso, Ind., June 15.—The following appointments have been announced by Joseph Sego, the new commander of the Sons of Veterans of Indiana: Division councillor, Herbert A. Lucky, Indianapolis; division chaplain, J. B. Dullman, Bloomington; division inspector, Fred S. Kenneson, Valparaiso; division patriotic instructor, Legrand T. Meyer, Hammond; division chief of staff, M. B. Rockwell, Valparaiso; division personal aid, George F. Ogden, Wabash; division organizer, R. G. Boswell, Winchester.

J. FEUDNER, President and General Superintendent.

Office in Republican Building, Northwest Corner Second and Perkins Streets.

Entered as second-class matter March 22, 1904, at the postoffice at Rushville, Indiana, under the act of Congress of March 8, 1897.

One week, delivered by carrier.....10
One year in the city by carrier.....\$4.00
One year delivered by mail.....\$3.00

TELEPHONE NUMBER, 1111.

CLAUDE SIMPSON, Editor.

ROY HARROLD, City Editor.

Wednesday, June 15, 1910.

The welcome to Roosevelt at his home coming on the 18th will be most fitting. The bay of New York harbor will be crowded with boats bearing his host of friends, while his greeting on land will be hearty and unprecedented. It will be a non-partisan welcome as it should be, and yet all will have in mind that it was as a Republican governor, vice president and president that he gained his fame. He will continue to be a loyal Republican, and give his unqualified endorsement to Republican policies.

Big purses hung up by sensational newspapers for aviators are being plucked with remarkable regularity. Inter-city air routes are apparently a thing of the not distant future. Albany and New York and Philadelphia and London and Manchester, to say nothing of many Continental towns, have already been hooked up by the birdmen. The channel has been crossed and recrossed. Will any man alive see the barrier of the Atlantic bridged by air? It seems impossible, yet it is no more impossible than the things done today would have seemed ten years ago.

There is no doubt but that a dollar-a-day pension law will be enacted in due season, because the decreased number of pensioners makes it possible to put such a law into operation without an expense the country is incapable of meeting. And if the law is enacted it will be the work of the Republican party, which has always been on the side of the Union soldier. Nothing could be more ridiculous than the smirking attempts of the Indiana Democratic congressional conventions to court the union veterans by resolutions of approval of the dollar-a-day pension proposition. Without a Democratic congress, the Democrats are powerless to accomplish anything and with such the passage of a union soldier pension bill of that character would be impossible, for the Democratic majority, in fact the great bulk of the Democratic vote in congress, necessarily must come from the South, which is not favorable to liberal pension allowances.

Several years ago, it was a common belief among many fruit growers that an orchard was self-sustaining, and required no attention whatever after the trees were two or three years old. That opinion is today recognized as erroneous, as it is realized that a successful orchard must be given attention and care the same as other farm products. Scientific fruit growing is no longer an experiment, but is now the universal method among the progressive farmers and fruit growers in caring for their orchards. A number of experimental orchards have been established throughout the State, and by these it is shown that fruit of the best quality can be raised in Indiana. In many places it has been demonstrated that the element in the soil which is needed, can be supplied, so that successful orchards can be maintained in any part of the State. By careful attention it is believed that Indiana can again take her place as one of the leading fruit States of the Union. When this is done, the growers will receive a better revenue from their ground which they have given to the orchard, and the public will be benefited, as the supply will be larger and the cost of fruit correspondingly lower.

An aeroplane in which seamless steel tubing takes the place of wood or bamboo in the frames and planes has proved a success in Germany.

Massachusetts produces agricultural products annually three times greater than California, which has nine times her area, and four and one-half times greater than the storied State of Kansas.

From the Suburbs

Whoever bought the United States senatorship for the Hon. Lorimer and neglected to tell him about it certainly placed that distinguished Illinois publicist at a sad disadvantage—Kansas City Star.

Publicity has greater remedial powers than have yet been appreciated. There ought to be more of it, not only on the stock exchange, but in congressional committee rooms, halls and other centers of government. The public ought to see the pudding being made as well as being invited to eat it after it is made—Washington Times.

It's funny how many women can fall in love with a rich man after he's dead—Washington Times.

Our band has gone glimmering. The most of the members had too much wind and too little music—Ligonier Leader.

The Hoosier Democrats are not the only ones, it is safe to say, who will find that "outsiders" are not needed to carry on the stage campaign. But though you may exclude Bryan, you cannot silence him—Boston Journal.

Senator Lorimer still insists that he had nothing to do with that pinning of a price mark on his toga—St. Paul Dispatch.

"Tom" Watson has returned to the Democratic party. That organization couldn't get rid of hard luck if it used dynamite—Providence Journal.

There is a new cow at the white house, but some of the critics of the administration insists that what is needed is a new goat—Pittsburg Dispatch.

The chief complaint against Mr. Bryan is that he always strikes out when the bases are full and the score tied—St. Paul Pioneer Press.

Chicago announces a "slight cut" in beef. That is what the public has been living on for a long time. A substantial cut is what is wanted—Rochester Democrat.

Mother's stalwart and manly son, who hasn't had enough energy to cut a turn of wood, mow a lawn or beat a carpet since last fall, is just full now manifesting symptoms of renewed vitality by being able to knock the ball over the fence and make a home run—Albany Herald.

The Republicans could ask nothing better than for the country to see what the Democrats would do if they had the power—Denver Republican.

There is more limelight in being a captain of insurgents than there is in running for the presidency—Atlanta Constitution.

If you wish to see rainbows in every direction, go out to Iowa and be an "insurgent"—Washington Herald.

The sugar trust is discovering that the scales of justice can not be tampered with as easily as the other kinds—Des Moines Register and Leader.

Use Red Cross Blue and make them white again. Large 2 oz. package, 5 cents.

We guarantee all repair work at the Auto Inn. 75tf

Tell some deserving Rheumatic sufferer, that there is yet one simple way to certain relief. Get Dr. Shoop's book on Rheumatism and a free trial test. This book will make it entirely clear how Rheumatic pains are quickly killed by Dr. Shoop's Rheumatic Remedy—liquid or tablets. Send no money. The test is free. Surprise some disheartened sufferer by first getting for him the book from Dr. Shoop, Racine, Wis. Sold by Frank E. Wolcott.

WANT ADS BRING RESULTS

Are Women Stingy?

The latest correspondence in the daily newspapers on the everlasting man-and-woman subject asks if women can live more cheaply than men. There appears to be a general impression that they can. Most people believe that women are naturally more closefisted—more stingy—than men.

In proof of this it is pointed out that a woman will tramp miles through the shopping district to save 5 cents on a bargain. She will give a waiter a 5-cent tip where he would exact a dime from a man. She will pay the taxicab driver his exact fare and no more. Men are more lavish than women about this kind of thing. And "lavish" isn't the most expressive word to use. Prodigal would be better, because a man's expenditures do not represent, as a rule, the proper equivalent of the value he has received and he knows it. Whether he can really afford it or not he pays a ridiculously high price for his lunch. In the matter of other personal expenditures he regulates his payments more on the lines of generosity than of justice.

A woman always asks the price of an article before buying. If it is too dear she simply won't buy, but goes elsewhere looking for a better bargain. Imagine a man doing that!

A man's method of spending money is frequently of great business importance to him. He has to know the right people and he has to go to places where he will meet them. The restaurant where he dines at noon is the only place where he can get an opportunity to meet Mr. So and So, and if the price is stiff it must really be regarded as a legitimate business outlay.

As a rule, a man regards debts very differently from a woman. The average domestic-minded, well-brought-up woman has a native horror of debt. If a man wants ready money he seldom goes without it, procuring it by the simple means of letting some bill stand over a while longer. By this free use of the credit system he manages to enjoy his money much more than a woman does hers, who wakes up in the night to reflect that she must pay the butcher and her old gloves must just do. A woman deals in pennies where a man deals in dollars. She has to be pennywise because she seldom has the chance of being pound foolish.

Women are taught economy and the value of money from their cradles; extravagance and miserliness are matters of temperament, but prodigality and thrift are largely matters of sex training. Many women are perfectly conscious of a freehanded nature with them, longing to spend money lavishly and carelessly and royally, and yet held in check by their training, their knowledge of the value of economy and their farsightedness, which sees next week's books looming beyond the blessed pause of Sunday.

A man may have his big worries in the office, or on the other hand, he may just transact the ordinary routine of work, but it is the wife who has to go through all the nagging, humiliating details of household money matters. No wonder she learns to regulate them carefully, and to deny to other workers more than their fair wage. As a worker herself, and one dealing in tiny sums, she realizes, as a man never can, the importance of these small amounts.

Training the American Boy

On the one hand is the high school in the typical American town—the comfortable little middle Western city, for instance, where none is very rich nor very poor. A boy lives with his father and mother and brothers and sisters at home. He learns Gaul's three parts, and the square of the plus b, and also probably, how to take care of the furnace and shovel snow. All the varied human relationships of a home and town still fairly homogenous, and scarcely aware of such words as "tradesman" or "servant class," gradually shape and color his mind and character.

The Swedish carpenter's son beats him in geometry; the washerwoman's daughter knows more than he of Byron and Shakespeare. His own wit is leavened beside the repartee of the expressman, and he knows the groceryman very well because the groceryman who used to go to school with his father, regards him affectionately as a sort of nephew, and always asks him if he won't have a ride when he happens to drive by. All the kindly humanity of the place steeps into him—far more probably, than he realizes at the time. He can't quite escape observing that there is illness and failure in the world as well as football heroes and banjo clubs, and his own enthusiasms are set against a saving background of men with lines in their faces who have to hustle to pay rent and coal bills. He is part, in short, of a commonwealth instead of a cult; a school boy instead of a college "man" in miniature.

Also, probably, he is indifferently taught, crude in manners and clothes, and although he may go down to college with a general knowledge of human nature, and an instinctive democracy which his more specially prepared classmates may not acquire until years after they have left college, he goes awkwardly, like a tourist suddenly stepping into Paris or Timbuctoo.

At the other extreme is the fashionable preparatory school, cloistered away in some peculiarly agreeable and beautiful corner of the country.

The supply of foodstuffs in Germany has only been kept up to the maximum figures by intensive agriculture, the employment of modern machinery, scientific fertilization and the employment of millions of female farm hands.

The known petroleum areas of the country cover 9,850 square miles and the natural gas areas 10,955 square miles.

The boy of 12 is taken here before he has begun, so to speak, to wake up. He may even have begun earlier and "prepared" for the preparatory. Surrounded by other little boys exactly like himself, he is shut away from the rest of the world for six impressionable years. He is taught charming manners, kept from the hurly-burly of the public school, and from temptation in so far as temptation resides in outside things.

He is trained almost as rigorously for a special role as if he were the son of an acrobat following his father's trade, or some rich little city girl preparing to "come out." If he isn't in the class room, he is hard at it on the football or baseball field or track or river. There are no loose ends or waste. Every moment is filled with carefully planned work or play, and watched over by older men—men who have traveled, alumni of the college for which he is preparing, perhaps, who have played on the teams and belonged to the club he hopes to play on and belong to.

Naturally he develops rapidly, and as this development is all along the line of making him a "gentleman" and a success in college, his comparative progress is astonishing. He learns loyalty to an ideal—his school, and what it stands for—when the public schoolboy still considers teachers his natural enemies. He makes many delightful and valuable friends. He puts on a black coat and pumps each evening, perhaps, learns to play cricket or fives, always uses the "Sir" when addressing a master—acquires as a matter of course a thousand little agreeable graces. There is nothing "fresh" about these gentlemen when they enter college. They come down to Cambridge or New Haven—you can tell them at a glance—as serenely almost as they might go to visit an uncle or a grown-up brother.

How far this preparation for college life is a preparation for ordinary life is, of course, another and more difficult story. —From "Some American Preparatory Schools," by Arthur Ruhl in the June Scribner.

Taken by Powerful Man.

No man is so powerful that he does not have to take Sexine Pills when he feels knocked out. There is no doubt that Sexine Pills are the greatest tonic on earth. They are absolutely guaranteed for any form of nerve weakness in men and women. Price \$1 a box; six boxes for \$5. Address or call Hargrove & Mullin, druggists where they sell all the principal remedies and do not substitute.

Bribery in Indiana A National Theme

"Forty-four Democratic members of the Legislature openly gave me pledges of their support—their constituents required it. Forty-two votes were all I needed." These are the words of John W. Kern, who was an aspirant for the senatorship in Indiana's Democratic Legislature last winter, but Shively mysteriously carried off the prize, says the St. Louis Globe-Democrat. Mr. Kern declares that there was a secret ballot that "eight men were purchased," that Shively received the nomination in this irregular way and adds: "There are forty-four men who will make affidavit today that they gave me their support. I can not prove bribery on any one, but I think I know the names of the eight men who were bought up."

Under the lead of the Indianapolis Star, which is a Republican paper, and therefore unprejudiced as between Democrats, many Indiana journals are urging an inquiry into this case, so as to test the title by which Shively holds the senatorship which Kern expected to get, and which, undoubtedly, a majority of the Indiana Democrats wanted him to get. As Illinois is having a little investigation in the Lorimer case, Indiana, which also seems to have good reason for an inquiry of this sort, ought to have one in the Shively matter. The charges which have been made by Kern deserves attention. Shively should ask for an inquiry in order, if he be innocent, to halt the accusations. If Shively obtained his election fairly Kern, of course, will be glad to withdraw all his charges. Thus the Democratic party in Indiana, as well as the senator himself, would be benefited.

It must be remembered that an accusation made by a man of John W. Kern's standing is certain to attract wide attention. He held several State and municipal offices, was his party's nominee for Governor in 1900 and 1904, and was the vice presidential candidate on the Bryan ticket in 1908. He is the most conspicuous Democrat in Indiana. When his party carried that State's Legislature in 1908 the country supposed he would be chosen as the successor of James A. Hemenway, the Republican senator whose term was to expire in 1909. The election of Shively instead of Kern surprised Republicans as well as Democrats. Thus Kern's accusation of irregularities in the election find many listeners. It would seem that, for the credit of the Indiana Democracy, the Legislature as well as Senator Shively should ask for an investigation into the charges which Kern has made.

Crop Conditions in State

Recently the Cincinnati Enquirer sent its correspondents in this State asking them for reports as to the crop conditions and the following are those sent from the counties in this section of the State.

Brown—Apples all killed and other fruits greatly damaged. Early garden stuff all killed. Crop of all fruits small, compared with 1909.

Decatur—Apples, grapes and cherries almost total loss. Strawberry crop short. Pears and peaches half a crop. Blackberries and raspberries plentiful. Tomatoes only vegetables good.

Franklin—Nearly all fruit killed. Henry—Fruit one-third crop. Vegetables good.

Hancock—Apples and other fruit practically all killed. Strawberries plentiful and vegetables abundant.

Rush—Fruit turning out better than expected. Vegetables late, but in good condition.

Shelby—Cold weather did little damage in this county. Fruit in good condition. Fine prospects for a big yield of potatoes. No peaches at all.

Union—No peaches, one-third apple crop and poor at that; pears one-third and cherries one-fifth crop. Strawberries an average yield; blackberries promise a fine crop.

Wayne—Fruit crop, except strawberries and other fruits, less than usual. Vegetables up to standard.

No matter what the trouble with your car we can fix it at the Auto Inn. 75tf

Origin of Modern Mr., Mrs. and Miss

It is really a curious system that we have here and in every other place of putting a prefix, in order to be polite or as an act of courtesy, to the name of the person whom we greatly esteem or who is connected with us by bonds of friendship, says the Mexican Herald. This custom plainly demonstrates the curious existing social relations, for is there any reason why people should not be called by their names alone? And if it is considered a proof of respect, whence comes that respect?

Why should we use the prefix "Don," "Senora" or "Senorita," then as a matter of necessity?

The most humble Roman, even if he was addressing a good friend of his or whether he bowed with respect before the great Caesar, would have not thought it necessary to use any prefix whatever in order to perform his duty, and at that time it would not have been considered an act of discourtesy toward his superior.

During the time of the Roman emperors it was considered an act of personal respect to use the word "dominus" (head of the house). According to Suetonius, Emperor Claudius, desirous of becoming popular, offered banquets to the masses, that is to say to the lower classes, and in order to inspire confidence among the invited guests and to show them that he considered them his equals he would shake hands with every person who arrived and call him "dominus" or mister, but the custom was not established as a general rule, because "dominus" had another meaning, although the poets would use it in its feminine gender, "domino," as an endearing name among lovers.

The modern use of "dominus" did not appear until the Western empire came to an end. What until then had been a casual tribute of respect became necessary in order to address persons of high rank, and a lady, wife of a knight, or wife of the owner of a castle became "mea domina," then mea domna, afterward "madonna" and lastly "madame." The young unmarried women of the middle ages received the name of "dominella," which afterwards became "demoiselle," and this finally became "mademoiselle."

A knight was "domino," and afterward "dommo," from which the Spanish "don" is taken. But later on the masculine and feminine gender melted into one "dame," which meant gentleman as well as lady. That is why the present French exclamation "dame" means "senor," and not "senora," as some people suppose.

Toward the twelfth century the word "dame" as a masculine title began to be substituted by another, the Latin "senior," which has survived in the same form, used as "senor" in Spanish, "senior" in Portuguese, "signor" in Italian and "seigneur" in French. The same word mutilated stands for the French "sieur" or "monsieur." In English it has its equivalent in "sir," which at one time was an ecclesiastical title, and which meant "reverend," and was also a university title applied to bachelors.

The "maitre" of the French is an appellation which is applied to respectable persons as for example, in Spanish it is said "Senor Pepe" to an individual who is respected but belongs to the lower class.

In regard to respect in names, there is not a country ahead of the Chinese. According to their oriental courtesy, a Chinese gentleman believes that the ordinary pronouns, "you" and "he" are too familiar applied to persons with whom one is not in close touch, and employs a series of complicated expressions. Besides, in order to show respect for persons of high rank and to the dead, the Chinese never pronounce their real names, but others, so that the daily use will not profane their sacred names. Owing to this reason, while we speak with great familiarity about Confucius (Khong Fu Se), a Chinaman will only give the name of Sian Sing, or some other name, in order to demonstrate the respect he professes and not to degrade the name that his parents gave him.

None of the monarchies of Europe, with the exception of Russia, can show a larger area than that of Texas—she possesses 57,000 square miles more of territory than the Kaiser's realm.

PERSONAL POINTS

—Cary Jackson is in Martinsville taking treatment.

—A. T. Mahin transacted business in Indianapolis today.

—G. H. Stahlman made a business trip to Shirley yesterday.

—Mr. and Mrs. Owen L. Carr were Indianapolis visitors today.

—A. P. Walker transacted business in Indianapolis today.

—Donald Sparks was in Indianapolis today for the airship races.

—Dr. and Mrs. C. H. Parsons were Indianapolis passengers this morning.

—Miss Helen Monjar is visiting the Misses Hypatia and Lucile Talbott in Indianapolis.

—Oliver Mock and Paul McIntosh were in Indianapolis today for the airship races.

—Mrs. M. B. Clark and daughter, Mrs. James Sharer were visitors in Indianapolis today.

—Miss Pearl Applegate is attending summer school in Indiana university at Bloomington.

—Mrs. Mary Newkirk of Indianapolis, who formerly lived here, spent the day here on business.

—John W. Gartin went to Decatur county today to attend a Jersey cattle sale near Greensburg.

—Mrs. Lon Ginn will attend the Shortridge high school commencement in Indianapolis tonight.

—Mrs. Wilbur Dark of Indianapolis is visiting her sister, Mrs. W. H. Wolcott in West Fifth street.

—Dr. J. G. Lewis and George Looney, Sr., were in Indianapolis yesterday for the aviation meet.

—Mr. and Mrs. Walter Looney of Union township went to Indianapolis today to attend the airship races.

—Mrs. Rebecca Handly of Connersville is visiting Mr. and Mrs. J. T. Arbuckle in West Second street.

—J. V. Young, Roy Abercrombie and Carl Beher went to Indianapolis this morning to attend the airship races.

—Mrs. Douglas Morris, son and daughter, Miss Hannah, were in Indianapolis today for the airship races.

—Harold Mauzy of Gary is the guest of relatives in the city and county. He expects to remain here until Friday.

—Hugh Mauzy went to Richmond yesterday for a brief visit with relatives and friends. Mrs. Mauzy is already visiting there.

—Mr. and Mrs. Morris Winship and daughters, Misses Cora and Nelle went to Indianapolis this morning for the events at the motor speedway.

—J. Q. Thomas and W. A. Alexander were in Indianapolis today on business. Mr. Thomas will remain for the Butler alumni banquet at the Denison tonight.

—Greenfield Reporter: Mrs. Love Peters of Rushville, Mrs. Cynthia Peters of Marion and Mrs. Jennie Todd of Rush county are here at the bedside of Mrs. Franky Peters, who is critically ill.

—Greensburg Democrat: Emma Whiteman came over from Milroy Tuesday morning to spend a few days as the guest of Sue Kemble. From here she will go to Columbus to visit with Mrs. Nine Graham and Mrs. M. A. Tompkins.

—Albert Smelser of near New Salem left this morning for San Francisco, Cal., where he has accepted a lucrative position with the Kennedy & Brown automobile Sales Co., as demonstrator and salesman. He took a twelve weeks' course in auto-dynamics at Indianapolis last winter which thoroughly equipped him for the work.

—Mr. and Mrs. George Wilk, Mr. and Mrs. Isaac Hoagland, farmers of Scott county and Miss Ethel McKinney of near Madison were guests of Mr. and Mrs. Walter Wilk of near New Salem from Sunday afternoon to Tuesday morning. The trip was made in Mr. Hoagland's automobile. Miss McKinney will extend her visit a few days with her sister, Mrs. Wilk.

—Miss Bertha Farling and Miss Florence Cherry of Shelbyville were the guests of Mrs. Alonzo Newhouse today.

JOINT MEMORIAL SERVICE.

The Modern Woodmen, Knights of Pythias, Red Men and Odd Fellows of Milroy will hold joint memorial services there next Sunday. W. C. Erhardt of Greensburg will deliver the address.

JEWETT WINS TROPHY.

Kenneth Jewett of St. Paul won the silver trophy offered by the Letts Gun club at the shoot yesterday afternoon, his score being 88 out of a hundred shots. His closest competitor for the cup was George Kanouse, also a St. Paul man, who broke 87.

INVITES WAR VETERANS.

Manager Cary Clifford of the Palace theater has issued an invitation to every Civil war veteran to attend his theater free of charge tonight. He will show a Biograph film dealing with Civil war incidents.

Fight the Flies

Now is the time to begin biffing the housefly, according to the Kansas City Times. Physicians say that every fly insufficiently swatted now means several million equally evasive and germ-carrying offspring in a month or so. To eliminate the housefly at all, you must eliminate it early in the game, before it has time to hatch its eggs.

"Contrary to the general belief," Dr. Albert Florian said recently, "the housefly does not lay its eggs within doors. The larvae come out of their microscopic shells in trash piles, so the best way to get rid of the fly is to keep every yard and vacant lot in the city clean."

"The next step is to prevent the fly from entering the homes. Although the little pests are fond of sugar, there are certain sweet odors which they dislike. No fly will light on a person who uses perfume. Honeysuckle is the vine whose blossoms are like poison to the fly, and they will not come within yards of it. To prevent the young houseflies from entering a home, honeysuckle vines should be strung along the front and particularly near the kitchen door of every home. Then the flies will not enter."

"What to Do After the Fly Enters the House" might be a good title for some admonition given recently by Walter M. Cross, city chemist. He has been smiting the fly very successfully for several years and his home has been free from the pests for many seasons.

"There is a closed season in fly hunting," he said, "but right about now is the best time to begin killing them."

"If a fly gets past screen doors and windows and into your house, put about twenty drops of carbolic acid on a hot pan and allow the vapors to fill the house. The odor is almost unnoticeable to a human being, but it is fatal to flies. There are several other ways of slaying the pests, but this is probably the best and cheapest."

Eczema—A Germ Disease Can Now be Cured.

The Medical profession is all agreed that ECZEMA is a germ disease, but the thing that has baffled them is to find some remedy that will get to the ground and destroy them.

Zemo, the clean, external treatment has solved this difficulty by drawing the germs to the surface of the skin and destroying the germ life that causes the disease. The whole method of treatment and cure by ZEMO is explained in an interesting book on the subject issued by the makers of ZEMO. It tells how to cure yourself at home of Eczema, Blackheads, Pimples, Dandruff, and all diseases of the skin and scalp. Call at F. E. Wolcott's Drug Store for Booklet and learn more about this clean, simple remedy that is now recognized the standard treatment for all diseases of the skin and scalp.

AMUSEMENTS

"The Bellringer's Daughter" is the story of the film at the Star Grand tonight. This beautiful pastoral drama is taken from Tom Moore's immortal lines, and the scene is laid in Old England, and the atmosphere of the piece has a charm and fascination which cannot be found in this age of sky-scrapers. Earl Robertson will sing "In the Golden Long Ago."

The Palace theater offers a big double program for the evening crowd on "Big Wednesday." Aside from the Biograph drama, "In the Border States" or "A Little Heroine of the Civil War," they will show the great western drama, "The Ranchman's Fued," which was shown to the afternoon crowds. The Biograph deals with the Civil war period. It is of special value on account of its dramatic strength and scenic beauty. It tells a story of heroism on the part of a small child, who first saves the life of a Confederate soldier, despite her inborn sectional feelings, and afterwards saves her own father, a Union soldier, from the hands of the same confederate.

The Vaudet has a special attraction tonight, namely the Roosevelt African pictures, which have been shown in all the large cities, and which could not be obtained for the smaller towns until now. It shows the arrival of Roosevelt at Mombasa, fording the G'Uaso Nyiro river—a mighty caravan of 400 native porters, prominent and interesting African savages, and pastimes of African boys, animals in their native health, and also a balloon ascension is given. The film is fully 1000 feet in length, and is certainly an interesting and instructive one. Do not miss it. A new song will be rendered by the vocalist.

All animals are terrified by airships. Partridges, quails and other game birds crouch and hide, while domestic fowls utter loud warning notes the instant they perceive the monstrous bird of prey.

'BIG WEDNESDAY' NOT SLOW

County Clerk Norris Issues Marriage Licenses.

for County Clerk Verne Norris for he "Big Wednesday" was not slow was busy issuing marriage license. He granted a license to Miss Callie Brummel and Raymond Edwards, and Miss Nellie Faye Harecourt and Harry E. Medbourne.

While digging to make the water and sewer connections in Main street today, the workmen found several old timbers which were used in the olden days for roads.

LET DREAMS COME TRUE

The Third Degree

(Copyrighted, 1900, by G. W. Dillingham Company.)

As soon as he disappeared she gave away completely, and sinking into a chair, leaned her head on the table and sobbed as if her heart would break. This, then, was the end! He would go away and soon forget her. She would never see him again! But what was the use of crying? It was the way of the world. She couldn't blame him. He loved her—she was sure of that. But the call of his family and friends was too strong to resist. Alternately laughing and crying hysterically, she picked up the tray, and carrying it into the kitchen, began washing the dishes. Suddenly there was a ring at the bell. Hastily putting on a clean apron, she opened the door. Judge Brewster stood smiling on the threshold. Annie uttered a cry of pleasure. Greeting the old lawyer affectionately, she invited him in. As he entered, he looked questioningly at her

GRAY HAIRS BANISHED.

The old idea of using sage for darkening the hair is again coming in vogue. Our grandmothers used to have dark, glossy hair at the age of seventy-five, while our mothers have white hair before they are fifty. Our grandmothers used to make a "sage tea" and apply it to their hair. The tea made their hair soft and glossy and gradually restored the natural color. One objection to using such a preparation was the trouble of making it, especially as it had to be made every two or three days on account of its souring quickly. This objection has been overcome and by asking almost any first-class druggist for Wyeth's Sage and Sulphur the public can get a superior preparation of sage, with the admixture of sulphur, another valuable remedy for hair and scalp troubles. Daily use of this preparation will not only quickly restore the color of the hair but will also stop the hair from falling out and make it grow. It is sold by all druggists for 50c, and \$1.00 a bottle, or is sent direct by the Wyeth Chemical Company, 71 Cortlandt St., New York City, upon receipt of price.

For sale and recommended by Har-grove & Mullin.

If Sick

Don't risk even one single penny!
And I will tell you why I say this. It is because every package of Dr. Shoop's medicine is absolutely free if it fails. No one need risk even one single penny. Just think what this means to the suffering sick!
No risk, no expense, nothing whatever unless health first returns for 30 full days, and without the risk of a single penny, you can use either of my two famous remedies—Dr. Shoop's Restorative or Dr. Shoop's "Inside Nerve". Then why take any chance whatever?
Why purchase any medicine whose maker dare not back it just as I do by this remarkable offer?
And besides, I am not a doctor to you. My "No help money" plan has made Dr. Shoop's Restorative a household word in every drug store in the land. The doctor who said, "We take no chance whatever here."
For twenty years Dr. Shoop's medicines have become thoroughly standardized all over America. And I have pointed honest and responsible druggists in every city and village everywhere to accept my medicine and yours. These selected druggists are the only ones who sell the sick—and the entire risk is mine alone.
But write me first for an order. I have an agent in almost every community—but all druggists are not authorized to grant the 30 day test.
So drop me a line, please—and thus save all disappointments and delays.
Besides, you are free to consult me by letter as you would your home physician. Do so freely and fully—if you desire. My advice and the book below are yours—and without cost. Perhaps a word or two from me will clear up some serious ailment. I have helped thousands upon thousands by my private prescription or personal advice.
Besides, the books will open up new and helpful ideas to you. They tell of my 30 years experience at the bedside in homes and in Hospitals. All phases of sickness and relief are told of here. They tell of the "inside nerve" which is no larger than a silken thread, but gives to the heart its impulse. How the stomach and kidney each have their inside or power nerve. How these organs surely fail when these controlling or master nerves begin to fail. How Dr. Shoop's Restorative goes directly to these failing nerves, and rebuilds and restores the lost tone and power. I can surely help you—if it is within the power of medicine to do so. My best effort is surely worthy of your simple request. So write now, while it is fresh in your mind, for tomorrow never comes. Dr. Shoop, Box 12, Racine, Wis.

red eyes, but made no remark.
"I'm delighted to see you, judge," she stammered.
As he took a seat in the little parlor, he said:
"Your husband passed me on the stairs and didn't know me."
"The passage is so dark!" she explained, apologetically.
He looked at her for a moment without speaking, and for a moment there was awkward pause. Then he said:
"When does Howard leave you?"
Annie stared in surprise.
"How do you know that?" she exclaimed.
"We lawyers know everything," he smiled. Gravely he went on: "His father's attorneys have asked me for all the evidence I have. They want to use it against you. The idea is that he shall go abroad with his father, and that the proceedings will be begun during his absence."
"Howard knows nothing about it," said Annie, confidently.
"Are you sure?" demanded the lawyer, skeptically.
"Quite sure," she answered, positively.
"But he is going away?" persisted the judge.
"Yes, I want him to go—I am sending him away," she replied.
The lawyer was silent. He sat and looked at her as if trying to read her thoughts. Then quietly he said:
"Do you know they intend to make Robert Underwood the ground for the application for divorce, and to use your own perjured testimony as a weapon against you? You see what a lie leads to. There's no end to it, and you are compelled to go on lying to support the original lie, and that's precisely what I won't permit."
Annie nodded acquiescence.
"I knew you were going to scold me," she smiled.
"Scold you?" he said, kindly. "No—it's myself I'm scolding. You did what you thought was right, and I allowed you to do what I knew was wrong."
"You made two miserable women happy," she said, quietly.
The lawyer tried to suppress a smile.
"I try to excuse myself on that ground," he said, "but it won't work. I violated my oath as a lawyer, my integrity as a man, my honor, my self-respect, all upset, all gone. I've been a very unpleasant companion for myself lately." Rising impatiently, he strode up and down the room. Then turning on her, he said, angrily: "But I'll have no more lies. That's what brings me here this morning. The first move they make against you and I'll tell the whole truth!"
Annie gazed pensively out of the window without making reply.
"Did you hear?" he said, raising his voice. "I shall let the world know that you sacrificed yourself for that woman!"
She turned and shook her head.
"No, judge," she said, "I do not wish it. If they do succeed in influencing Howard to bring suit against me I shall not defend it."
Judge Brewster was not a patient man, and if there was anything that angered him it was rank injustice. He had no patience with this young woman who allowed herself to be trampled on in this outrageous way. Yet he could not be angry with her. She

had qualities which compelled his admiration and respect, and not the least of these was her willingness to shield others at her own expense.
"Perhaps not," he retorted, "but I will. It's unjust, it's unrighteous, it's impossible!"
"But you don't understand," she said, gently. "I am to blame."
"You're too ready to blame yourself," he said, testily.
Annie went up to him and laid her hand affectionately on his shoulder. With tears in her eyes, she said:
"Let me tell you something, judge. His father was right when he said I took advantage of him. I did. I saw that he was sentimental and self-willed, and all that. I started out to attract him. I was tired of the life I was living, the hard work, the loneliness, and all the rest of it, and I made up my mind to catch him if I could. I didn't think it was wrong then, but I do now. Besides," she went on, "I'm older than he is—five years older. He thinks I'm three years younger, and that he's protecting me from the world. I took advantage of his ignorance of life."
Judge Brewster shrugged his shoulders impatiently.
"If boys of 25 are not men they never will be." Looking down at her kindly, he went on: "Pon my word! if I was 25, I'd let this divorce go through and marry you myself."
"Oh, judge!"
That was all she could say, but there was gratitude in the girl's eyes. These were the first kind words any one had yet spoken to her. It was nice to know that some one saw some good in her. She was trying to think of something to say, when suddenly there was the click of a key being inserted in a Yale lock. The front door opened, and Howard appeared.
"Well, judge!" he exclaimed, "this is a surprise!"
The lawyer looked at him gravely.
"How do you do, young man?" he said. Quizzically he added: "You look very pleased with yourself!"
"This is the first opportunity I've had to thank you for your kindness," said Howard, cordially.
"You can thank your wife, my boy, not me!" Changing the topic, he said: "So you're going abroad, eh?"
"Yes, did Annie tell you? It's only for a few months."
The lawyer frowned. Tapping the floor impatiently with his cane, he said:
"Why are you going away?"
Taken aback at the question, Howard stammered:
"Because—because—"
"Because I want him to go," interrupted Annie quickly.
The lawyer shook his head, and looking steadily at Howard, he said sternly:
"I'll tell you, Howard, my boy. You're going to escape from the scandal-mongers and the gossiping busy-bodies. Forgive me for speaking plainly, but you're going away because your wife's conduct is a topic of conversation among your friends—"
Howard interrupted him.
"You're mistaken, judge; I don't care a hang what people say—"
"Then why do you leave her here to fight the battle alone?" demanded the judge, angrily.
Annie advanced, and raised her hand deprecatingly. Howard looked at her as if now for the first time he realized the truth.
"To fight the battle alone?" he echoed.
"Yes," said the judge, "you are giving the world a weapon with which to strike at your wife!"
Howard was silent. The lawyer's words had struck home. Slowly he said:
"I never thought of that. You're right! I wanted to get away from it all. Father offered me the chance and Annie told me to go—"
Annie turned to the judge.
"Please, judge," she said, "don't say any more." Addressing her husband, she went on: "He didn't mean what he said, Howard."
Howard hung his head.
"He's quite right, Annie," he said, shamefacedly. "I never should have consented to go; I was wrong."
Judge Brewster advanced and patted him kindly on the back.
"Good boy!" he said. "Now, Mrs. Jeffries, I'll tell your husband the truth."

"No!" she cried.
"Then I'll tell him without your permission," he retorted. Turning to the young man, he went on: "Howard, your wife is an angel! She's too good a woman for this world. She has not

"Then Why Do You Leave Her Here to Fight the Battle Alone?"

hesitated to sacrifice her good name, her happiness, to shield another woman. And that woman—the woman who called at Underwood's room that night—was Mrs. Jeffries, your stepmother!"
Howard stared back in amazement.
"It's true, then, I did recognize her voice!" he cried.
Turning to his wife, he said: "Oh, Annie, why didn't you tell me? You saved my stepmother from disgrace, you spared my father! Oh, that was noble of you!" In a low tone he whispered: "Don't send me away from you, Annie! Let me stay and prove that I'm worthy of you!"
To the young wife it all seemed like a dream, almost too good to be real. The dark, troubled days were ended. A long life, bright with its promise of happiness, was before them.
"But what of the future, Howard?" she demanded, gently.
Judge Brewster answered the question.
"I've thought of that," he said. "Howard, will you come into my office and study law? You can show your father what you can do with a good wife to second your efforts."
Howard grasped his outstretched hand.
"Thanks, judge, I accept," he replied, heartily.
Turning to his wife, he took her in his arms. Her head fell on his shoulder. Looking up at him shyly and smiling through her tears, she murmured, softly:
"I am happy now—at last!"
THE END.

The Speech Accurately Reported.
"Mr. Speaker!"
"The gentleman from Plunkville."
"Mr. Speaker, I am here to say a word about the price of hay (ice water). The hay crop is our country's pride, (plug tobacco); it's 80,000 acres wide (gestures). We oughter study up a way (spits neatly) to keep out Europe's pauper hay (pounds on desk top). Hay in its time plays many parts; we use it largely in the arts (ice water). Responsive to our every mood (gestures) it makes cigars or breakfast food (spits neatly). Of earthly things it is the best (scratches left ear). I ask leave to print the rest (sits down heavily).—Washington Herald.

For Beautiful Hands.
Mrs. Jamieson, the well-known author, was a great admirer of beautiful hands and thus expressed herself on her favorite "point" in a woman: "A white hand is a very desirable ornament, and a hand can never be white unless it be kept clean; nor is this all, for if a young lady excels her companions in this respect she must keep her hands in constant motion; which will cause the blood to circulate freely and have a wonderful effect. The motion recommended is working at the needle, brightening her house and making herself as useful as possible in the performance of all domestic duties."

Rare Remedies.
In some parts of England the natives say the best way to cure a stiff neck is to wrap a live snake about it. In some of the Hebrides islands great faith is had in perforated, water-worn stones called "snake stones." These are dipped in tepid water, which is then given to cattle which have been bitten by snakes. If no stone can be obtained the head of an adder dipped in the water gives just as good results. An eel's skin worn as a garter around the naked leg is a fine preventive of cramps, and in some localities it is equally good as a bandage for a sprained limb.

Back to First Principles.
"They used to hang a man in England for stealing a pig."
"Well, it will be grand larceny in this country before long, if prices keep going up."

Best by Test, Fair Promise 5c Cigar.

HAMILTON DOES FINE AIR STUNT

Makes Round Trip Between New York and Philadelphia.

SUFFERED BUT ONE MISCHANCE

Engine Trouble Compelled Daring Aviator to Drop Near Amboy For Repairs, but Great Trip Was Completed in Ample Time to Comply With His \$10,000 Contract With the New York Times.

New York, June 15.—Charles K. Hamilton, the little red-haired acrobat of the upper air, flew to Philadelphia and back again. He lifted his biplane over Governor's Island at 7:43 a. m., and at 6:40 p. m., returned to the spot from which he started.

The flight to Philadelphia was made without mischance. Straight as a pigeon on the wing Hamilton sailed over cities, rivers and farms, winging an unsurveyed course. At 9:28 a. m., he was shaking hands with Governor Stuart of Pennsylvania, eighty-six miles from Governor's Island.

His luck failed him on the return journey, or he might, by wheeling about Yonkers, have beaten Paulhan's record for uninterrupted flight—117 miles, London to Litchfield. Fifty-three miles from Philadelphia he lost his bearings, mistaking a green patch of Jersey for Staten Island, and simultaneously two of the eight cylinders of his engine coughed and quit working. He dropped into the clutch of a swamp near South Amboy, and it was hours before repairs could be made and the aviator could escape the immense crowds that swarmed from the towns.

At it was, his actual flying time for the 172 miles was 209 minutes, and he fulfilled to the letter his \$10,000 contract with the New York Times, to make a round trip from New York to Philadelphia in twenty-four hours. Glenn H. Curtis, the first man in this country to make long-distance calls in a flying machine, said he considered Hamilton's achievement the greatest in the history of aviation.

Few men could stand the reception that Hamilton got when he dropped from the clouds. Along the Battery, the water front of lower Brooklyn, the edge of Staten Island and the Jersey shore, the piers and seawalls were black with people. Thousands of them had waited for hours, swayed by rumors that came from the Amboy swamp. On Governor's Island a thousand eyes were turned skyward.

All the weariness of the long wait, the impatience and the damp chill of the evening were forgotten when an officer with powerful field glasses suddenly threw up his hand and whooped like a Comanche. He was a gray and dignified officer, but he pirouetted like a sonnette. His yell was echoed over the wide expanse of sand that the government has built up from the sea. There was a scurrying toward the waterside. People stumbled blindly in the tricky sands, fell, picked themselves up and ran on.

He came so fast that a few seconds after the officer spotted him, the aeroplane was discernible to the naked eye. You saw, painted against the gray mists of Staten Island, over the Kill Von Kull, a blur. It might have been the tiniest puff of smoke. Ten seconds more and it was a wide-winged bird, a bird with its head tucked out of sight. On it came in a line a quarter of a mile south of the statue of Liberty, hundreds of feet above the bay. In another flash of time you made out the clear lines of the planes and you could see Hamilton crouched over his steering wheel.

As the air currents frisked above the water they dipped the aeroplane to the left and right. It enhanced the grace of the flight. While still over the bay but rapidly nearing the sea wall of Governor's Island, Hamilton shut off power. The propeller ceased its faint droning, revolved slowly for a few times, and the machine commenced to drop, slowly at first, then faster. Hamilton set the motor working just long enough to reverse the propeller and to make sure of an easy landing.

With yells exploding all around him, he dropped his biplane to the sands in a long sweep, as a gull dives. The bicycle wheels thumped the ground, the aeroplane bounced a foot, perhaps, and then ran along without a jar for less than fifty feet. Curtiss, watching like a hawk, threw up his hands: "By God, that was good," he said.

The crowd engulfed the little man and gave him no chance to climb out of the machine and stretch his cramped limbs. He was a sight. If ever in the world there was a soiled aviator, Hamilton was that bird. His red hair was matted with sweat and grease. His face was streaked and patched with grime and oil. His eyes were red from the winds (he wore no goggles), and dirt had settled in the lines of his face. The mud of the Jersey swamp clung to his legs and was spattered on his dingy leather coat. Happy? He was about the most cheerful thing, for all of the dirt, that you would want to see. He leaned back with a sigh of comfort, twisted a hand into his pocket, brought out a package of cigarettes and stuck one in his mouth.

"Has anybody here got a match?" asked Hamilton.

Had they? There were enough matches, loose, boxed and carded, of

CATARRH GERMS

Move Out When Hyomei Move in.

No stomach dosing. Hyomei is made chiefly of oil of eucalyptus and eucalytol taken from the eucalyptus forests of inland Australia, and combined with the excellent antiseptics employed in the Listerian system.

In inland Australia the atmosphere is so impregnated with balsam thrown out by the eucalyptus trees that germs cannot live, and in consequence catarrh and consumption are unknown.

Breathe Hyomei and get the same pleasant germ killing air as you would get in eucalyptus forests.

Hyomei is sold by druggists everywhere and by F. B. Johnson & Co. at \$1.00 a complete outfit.

An outfit consists of a bottle of Hyomei, a hard rubber pocket inhaler and full instructions for use. The inhaler lasts a lifetime, but if you need another bottle of Hyomei you can get it at druggists for only 50 cents at any time. Guaranteed to cure catarrh, croup and throat troubles or money back. Booth's Hyomei Co., Buffalo, N. Y.

MI-ONA Cures Indigestion

It relieves stomach misery, sour stomach, belching, and cures all stomach disease or money back. Large box of tablets 50 cents. Druggists in all towns.

ferred to him that he could have used the rest of his life. As he struck a light he saw his mother and his wife struggling through the crowd. They had been waiting with the rest of the folks of the island, and part of the wait had been a pretty nervous session. There were times when the telephone and telegraph neglected to say whether Hamilton was dead or alive—merely stuck in a swamp. There was very little kissing. His wife and his mother attended briskly to what was necessary in that respect, and they gave the little man a hug apiece for good measure. Some of his make-up came off on their gowns, but they did not care. There were people over on the island that would have paid money for a patch of his grime. He had to laugh himself. People snatched at his hand and yelled themselves red in the face. He took it calmly. There was, it seemed, rather more of a fuss than he liked.

Smoke FAIR PROMISE 5c Cigars.

Don't Spoil Your Clothes.

Use Red Cross Ball Blue and keep them white as snow. All grocers, 5 cents a package.

PLENTY OF SUCKERS BIT AT THIS GAME

Whisky Philanthropist Had To
Flee From Success.

New Orleans, June 15.—Gerald W. Evans, alias O. C. Bailey, confidence man and whisky philanthropist, pleaded guilty in the United States court here to using the mails to defraud, and was sent to the prison at Atlanta for eighteen months. Bailey perpetrated one of the most successful frauds here two years ago. Taking the name of O. C. Bailey, he announced in the papers through the prohibition states that as it was the tenth year his company, purely imaginary, had been in business, he would sell seven quart bottles of the finest whisky, express charges prepaid, for \$5. The fake advertisement took. Bailey took in \$11,000 in two days, and then, getting frightened, fearing that the government would catch him, disappeared, no one here ever having seen him to recognize him. He might have taken in \$30,000 or \$40,000 had he risked it longer, for the checks to him came in for two weeks longer.

STILL UNSETTLED

City and County in Deadlock Over
Treasurer's Bond.

Lafayette, Ind., June 15.—Through City Attorney Arthur D. Cunningham, the city of Lafayette has filed a petition in the superior court for a writ of mandate to compel County Treasurer Lee Duncan to file an official bond with the city as acting city treasurer. The mandamus suit is the result of trouble between the city and the county treasurer regarding the collection of city taxes and the turning over of the money so collected to the city. Another mandamus suit is now in progress to compel the county treasurer to turn over the money collected as city taxes to the city every day instead of at the semi-annual settlements as he is now doing.

In the petition it is charged that Duncan refused to file a bond, although the city council had adopted an ordinance requiring him to file a bond in the sum of \$100,000. The petition asked for the alternative writ to require either the filing of the bond or the showing cause why it should not be done. It is also asked that a writ of mandate be issued after the case has been heard.

Rabid Dogs Create Consternation.

Richmond, Ind., June 15.—Three head of milch cows, the property of local dairymen, were killed by order of the city health board, as the animals were suffering from rabies. This made a total of eleven cows killed within a few weeks from the same cause. Three dogs have been killed and the township has paid more than \$600 as damages to dairymen for the loss of their cattle.

Trusted Not Wisely but Too Well.

Alton, Ill., June 15.—Albert E. Bassett, cashier of the Illinois Glass company at Alton, is a defaulter to the amount of \$24,000. Bassett admitted having appropriated money for many years and investing it in various enterprises. He was trusted so implicitly that he was not checked up in six years.

Sudden Rise in the Ohio.

Evansville, Ind., June 15.—Alarmed by a rise of fifteen feet in the Ohio river, the farmers in the lowlands near the city are showing considerable agitation. The river is expected to pass the thirty-foot mark. The river is rising all the way up to Cincinnati.

Hiding in Indiana.

Carmi, Ill., June 15.—Burglars blew the safe in Walter C. Smith's store at Maunie, eight miles east, and escaped with \$75. The men are believed to have crossed the Wabash river, and are hiding in Indiana.

Killed by an Auto.

Rockford, Ill., June 15.—Fletcher Barnes, son of Mr. and Mrs. Archibald M. Catlin, was run down and killed by an auto.

Indianapolis, Indiana.

Bedford, Indiana, June 28, 1906.
The cancer on my face is entirely healed under Dr Mayo's treatment. Employ him if you have cancer. JOHN HUNTER, Bedford, R. R. No. 5.

ELECT OFFICERS FOR COMING YEAR

Orlando Randall Was Named President of County Sunday School Association Yesterday.

STATE SECRETARY ATTENDS

The Rev. A. W. Jamieson Made a Deep Impression With His Address.

George N. Burnie, State secretary of the Indiana Sunday School Association, made a good impression here in his work yesterday at the annual Rush county Sunday school convention. He set forth the "standards" which each school should strive for and explained in an attractive manner the work of the organized Sunday school movement.

The Rev. A. W. Jamieson gave a strong address showing the true purpose of the Sunday school as a "school" for all ages. He said that the little ones should be taught the scriptures and led to Christ, that the believers should then be instructed and assisted in leading Christian lives through the aid of Sunday schools, and that those older in the service should constantly study the word to gain help and new beauties of the Bible. The Bible school should be a school for all ages of people.

Officers for the county were elected as follows: Orlando Randall, president; E. E. Hungerford, vice president; W. A. Stockinger, secretary-treasurer; Grace Reddick, Carthage, Supt. Home department; Mrs. Jennie Power, Milroy, Supt. Teachers Training department; Mrs. Rush G. Budd, Rushville, Supt. Missionary department; Miss Elizabeth Flint, Rushville, Supt. Temperance department; Mrs. W. B. Wright, Rushville, Supt. Elementary department; J. H. Scholl, Rushville, Supt. Adult department.

LOCAL DEMOCRATS WANT SOMETHING

Dennis O'Neil Announces Himself as Candidate For Prosecuting Attorney Against J. C. Cheney.

WHO WANTS ANOTHER TERM

Dennis O'Neil of the law firm of Newbold & O'Neil yesterday evening announced himself as a candidate for prosecuting attorney, subject to the decision of the Democratic judicial convention of Rush and Shelby counties. John C. Cheney of Shelbyville, the present prosecuting attorney, announced himself several weeks ago. The local Democrats feel that they should have a chance at something as they have no candidates for the judgeship and Shelby county has two candidates for that office. Prosecutor Cheney in turn feels that he should have the office another term, as has been the custom.

Orval D. Sampson made an announcement for candidate for recorder of Rush county, subject to the delegates of the Democratic county convention. He is the third candidate in the field for that office as Tom Seaman and Howard W. Clawson have already made announcement of their desire to have a place on the ticket.

IS SPINNING FLAX.

The Indianapolis News of recent date contained a picture of Ruth Ann Henley of Carthage at work with an old spinning wheel. Spinning flax by hand is almost a lost art. The wheel shown in the picture, which was taken April 10, was made in 1846. "Aunt Ruth" as she is affectionately called in Ripley township is in her eighty-fifth year.

TO ATTEND SHOOT.

George M. Kanouse of St. Paul who claims the State amateur title went to Indianapolis today to take part in a two days' shooting tournament there.

KNOCKS ECLIPSE THEORY SKY HIGH

David W. McKee, of Connersville, Says that Such a Thing is Preposterous and Impossible.

SCHEDULED TO APPEAR FRIDAY

Reported that Sun's Eclipse Will Be Annular—No Record of Similar Occurrence in Former Time

The report has been sent out that an eclipse of the sun, different from any other eclipse ever known, would be visible to all observers over the United States on Friday. Newspapers all over the country have carried the story about the eclipse. It is advertised to be of a very unusual nature in that it will be annular for a few seconds, passing to a total and then back to an annular for a few seconds. There is said to be no record of any eclipse of a similar nature in the history of astronomy.

But now comes a man from Connersville who says that the whole thing is preposterous. David W. McKee, an attorney of that city, who is well known here, having practiced in the local courts, writes a letter to one of the papers there, "exposing" the whole celestial graft. He says that it is an impossibility for such a thing to take place. He is said to be an authority on astronomy. His letter follows:

I see in your issue of Saturday that on next Friday, June 17, there will be a remarkable eclipse of the sun. It is said that it will be annular part of the time and total for a while. This is absurd. If owing to the relative distances of the sun and moon, the disc of the moon is sufficiently large to cover the face of the sun, then the eclipse will be total, if the moon passes directly across the sun, and only partial if it passes so as to obscure but a fraction of the disc of the sun.

An annular eclipse of the sun can only occur when, owing to the positions of the sun and moon. The disc of the moon is not large enough to cover the face of the sun, and then when the moon passes directly between the sun and the earth there will be an annular, or ring of the sun showing around the moon.

Perhaps the most remarkable thing about the promised eclipse is that that there won't be an eclipse at all on June 17th.

An eclipse of the sun can not occur except at new moon, and as the moon falls about June 22d there will certainly be no new moon on the 17th.

SOCIETY NEWS

Mrs. Charles Bassler will entertain the Social Dozen tomorrow afternoon at her residence in East Sixth street.

* * *

Mr. and Mrs. Wirt Woodfill, Mr. and Mrs. Harry Woodfill and Rev. and Mrs. J. W. Turner gave an elegantly appointed dinner last evening in honor of Mr. and Mrs. Rollin Turner and Mr. and Mrs. William Turner at the home of the former on North Michigan avenue, says the Greensburg News.

The spacious rooms were beautiful throughout with daisies and roses. Ninety guests were present. Small tables were used, four being seated at a table. The floral embellishments on the table were the beautiful daisies, which formed a wreath around the sides of each and in the center candles were placed. The bridal table, also lovely with daisies and candles, was placed in the dining room and at it were seated the guests of honor, Mr. Rollin Turner and bride, Mr. William Turner and bride, Misses Ruth Bonner and Mary Littell and Mr. Homer Meek and Mr. G. L. Tremain.

The Rev. J. W. Turner of Rushville acted as toastmaster, and Attorneys Lee Tremain and Rollin Turner and Ensign William Turner responded to toasts.

What Our Neighbors Are Talking About

AVOIDS COLLISION.

(New Castle Courier.)

When James Thornburg of Muncie, riding a bicycle, saw that it would be impossible to avoid a collision with a fast running touring car, driven by George W. Crozier, he leaped from the wheel and alighted squarely in the lap of the astonished chauffeur practically unhurt. Thornburg's wheel was demolished and he probably would have been killed but for his presence of mind.

MANUFACTURING BEE.

(Greensburg Democrat.)

John F. Imlay, machinist and blacksmith of St. Paul, has invented and completed the model of a tool which will very likely make him some easy money.

It is a combination hand lathe and die stock, to be used in turning off the end of a worn buggy spindle or wagon skein, re-threading it to the shoulder, thus doing away with the side motion and making the buggy or wagon run like a new one, all this being done without the axle being removed from the vehicle.

John has been working on the invention for the past three years and just recently completed the model, for which he is making application for patent through a patent attorney.

That the tool is a success John knows for he has tried it out and it does the work for which it is intended perfectly. He expects to manufacture it in two sizes.

MAY HAVE BRICK STREETS.

(Greensburg Democrat.)

Greensburg is to have a brick paved street at last unless all signs fail. A. L. Everhart circulated a petition and secured about two hundred names of property owners, who petitioned the county commissioners to use the township three-mile-law in improving Main street.

At a meeting of the city council held Thursday night the members consented to the improving of the street.

Taking advantage of the three-mile township law is only a matter of equity between citizens as everybody in the county would be more or less benefitted by the street improvement as it is the main thoroughfare from the traction station and heart of the city to the Big Four railroad station.

Other cities are using the three-mile township law to improve their main streets (Rushville has just let the contract for two streets) and Greensburg deserves fully as much as the other cities.

The laws of the State allow this method of procedure and it is strictly legal, just and equitable.

FACTS ABOUT GRAY.

(Connersville News.)

Mr. Gray is, as stated, a lawyer. The city is, normally, Republican, but not very strong. Mr. Gray was elected last fall by ninety-eight votes. He was defeated four years ago by about seventy-two. Both races were chiefly affected by strictly local issues. If he is "backed by the support of the country, Republicans as well as Democrats," then Finley ought to make a mighty big showing next fall. But the statement will strike local readers as being strictly news and they will wonder how Mr. Gray found it out and was thus enabled to inform the Richmond reporter. Mr. Gray's strength has never been tested in any way outside the city and the local influence that swayed voters in this city on two occasions would have no effect with rural voters. Another bit of news is that Mr. Gray is Connersville's leading citizen. He may be, of course, but a lot of people here might not think so. If Finley told the reporter that, however, the News is not disposed to dispute it, and Finley as a boomer of his own importance ranks well with "the late" Rev. Thomas Kuhn.

List of Letters.

Miss Anna Weber, Mrs. J. Bailey, 322 W. 3d St., Mrs. Mary Brown, Mrs. Ed Offutt, Mrs. Sarah C. White, Clarence R. Wiley, Debbie Murphy, Major Gen. Daniel E. Sickles, W. G. Atwood, C. E. Lowe & Ardery.

BLAME JOINT WORM FOR LOSS

Grain Dealers Predict That Ravages of Pest Will Cut Crop Below Average.

FEAR A HEAVY WHEAT LOSS

Many Fields Are Diseased and the Damage Promises to be Greater Than Last Year.

That the joint worm, which was discovered working havoc in wheat fields in Marion county, is prevalent in southern, central and a portion of northern Indiana, is the statement of local grain dealers who are a unit in declaring that the Hoosier wheat crop this year will be far below the standard in quality and size, says the Indianapolis Star. Local grain dealers have received reports from many different localities relative to failing wheat, due to the ravages of the joint worm and other pests. The worm's appearance was noted by some farmers two years ago. Last year there was an increase in the damage done and this year the damage promises to be greater than ever.

"Two or three weeks ago," said A. F. Files of Files & Greathouse, grain dealers in the Board of Trade building, "we received reports of ravages of the joint worm in Posey county. Our reports from that county are that the wheat will not make more than 60 per cent of the usual crop. At a recent meeting of the grain dealers in Indianapolis reports were made concerning the ravages of the pest. The worm was reported pretty generally in the counties in this portion of the State. It has been found in Huntington county, where it is said the wheat will not make more than half a crop. We heard of its appearance at Fredericksburg and DePauw, Ind., and in Clinton county. I do not look for a very good crop of wheat in Indiana this year."

"The State is hard hit," said J. M. Brafford of Brafford & Sons. "We can not figure out more than half a crop for Indiana this year. Dr. Kelso of Eminence, Morgan county, was in the office a short time ago and reported that the joint worm had made its appearance in his wheat. The thing is getting worse right along. I am not an alarmist, but we all know this is true. Fields of wheat that looked good two weeks ago now look bad. We have reports of the appearance of the joint worm in Wabash, Grant, Cass and Howard counties. The bears are claiming that the Northwest crop is good. John Walsh of New Palestine was in this office today and reported the wheat falling down in his locality. Postmaster J. C. Briley of Rays Crossing reported bad wheat in his locality in Shelby county.

"The joint worm has been doing more or less damage in recent years. The damage has increased rapidly within the past two years. New York discriminated to some extent last year against Indiana wheat on this account and forced the local dealers to clean their wheat before shipping it. The chances are that the farmers sowed this wheat this year and the wheat now is infected more than ever. The farmers this fall before sowing again ought to get fresh seed or consult the Purdue Experiment Station and find out what to do. The seed was poor last year as a rule."

"The southern part of the State," said W. B. Wells of the Star Elevator company, "is badly infected with the joint worm. It has been reported also as far north as Clinton county. The wheat, according to reports received at this office, will not make more than five bushels to the acre. In this part of the State I believe the wheat will not average more than eight or ten bushels to the acre. In the northern part of the State I believe it will not make more than twenty bushels to the acre. I do not look for more than a 70 per cent. crop. I believe we are going to have a big crop of oats, though, and with favorable weather the corn crop will be large."

"The joint worm," said E. W. Bassett, "has caused some damage in Tr-

diana in recent years. We have had reports of it from isolated places, particularly around Indianapolis and in the southwest part of the State. The weather has not been unfavorable for wheat, and I believe we ought to have about 80 per cent. of the usual crop. It is too early now to predict just what the crop is likely to be."
